Management Discussion and Analysis of operating results and financial position

Overview of the past results' operation

The Company operates in telecommunication business by providing telecommunication services through nationwide fiber optic network and providing installation of telecommunication infrastructure. On 8 May 2012, the Company obtained telecommunication license type 3 from National Broadcasting and Telecommunication Commission (NBTC) in which, allowed the Company to own the network and rendering service through the mentioned network. The period of license is 15 years. The Company has started to construct core fiber optic network since 2012 in which the fiber optic were installed along with telegraph poles that the Company has 30 years' right of way since 19 October 2012 from The State Railway of Thailand. The Company has also constructed the main trunk routes and sub-routes along with the road through the poles as to connect to customers. The Company has launched a service under the network called "Interlink Fiber Optic Network" in June 2013.

In 2014, the Company has entered into data center business by acquiring assets from Interlink Communication Public Company Limited ("LINK") including building and equipment as to provide data center space services for companies and organizations according to their needs. The data center services have been operated in October 2014.

According to the policies of the government, Digital Economy and Thailand 4.0, they are to use information technology to apply to the economic and social activities, by focusing on the development of digital infrastructure and aiming to provide stability data connection in all areas with adequately supply for demand and could be access at a reasonable cost, as to lead to further development of the nation in both economic and social aspects in efficiency way. These policies are important to help promote the growth of information and communications technology industry (ICT) of Thailand and the Company as well.

For the three-month period ended 31 March 2019, the Company has total revenue of Baht 453.45 million or increasing by Baht 87.26 million or 23.83% comparing to the same period of prior year. In addition, the Company has net income of Baht 38.91 million or increasing by Baht 7.82 million or 25.15% comparing to the same periods of prior year as well.

Analysis of Operating Results

1. Revenues

For the three-month period ended 31 March 2019, the Company has total revenues of Baht 453.45 million in which they were increased from the prior year by Baht 87.26 million or 23.83% as presented table below.

Types of Service	31 March 2019		31 March 2018		Increase/(Decrease)	
	Million Baht	%	Million Baht	%	Million Baht	%
Service income	448.68	98.95	362.12	98.89	86.56	23.90
Other income	4.77	1.05	4.07	1.11	0.70	17.20
Total revenues	453.45	100.00	366.19	100.00	87.26	23.83

1.1. Service incomes

Type of Service	31 March 2019		31 March 2018		Increase/(Decrease)	
	Million Baht	%	Million Baht	%	Million Baht	%
1. Service income from network rendering	204.16	45.50	146.69	40.51	57.47	39.18
2. Service income from network installation						
- Service income from network installation	219.88	49.00	192.64	53.20	27.24	14.14
- Service income from network connection	2.24	0.50	1.62	0.44	0.62	38.27
Total service income from network installation	222.12	49.50	194.26	53.64	27.86	14.34
3. Service income from data center space						
- Service income from data center space	16.09	3.59	16.14	4.46	(0.05)	(0.31)
- Other service income	6.31	1.41	5.03	1.39	1.28	25.45
Total Service income from data center space	22.40	5.00	21.17	5.85	1.23	5.81
Total service incomes	448.68	100.00	362.12	100.00	86.56	23.90

Service incomes are divided into 3 categories as follows.

1.1.1. Service income from network rendering

Service income from network rendering is categorized into various types such as Interlink MPLS IP-VPN, Interlink Wavelength, Interlink Dark Fiber, and Interlink IPLC which the Company has started the services since June 2013.

For the three-month period ended 31 March 2019, the Company had service income from network rendering for Baht 204.16 million or represented 45.50% of total service incomes. The service income from network rendering of 2019 increased from 2018 by Baht 57.47 million or 39.18% because of the increasing of customers which is the normal growth in every quarter.

1.1.2. Service income from network installation

Service income from network installation is related to the construction of telecommunication hi-speed network and is categorized into 2 types as follows.

1) Service income from network installation in which recognizes revenue when the Company satisfies a performance obligation by transferring services to customers over time in accordance with term of each service contract with customers.

2) Service income from network connection in which recognizes revenue once the service has been completed.

For the three-month period ended 31 March 2019, these services generated revenue for Baht 222.12 million or 49.50% of total service income which can be divided to service income from network installation of Baht 219.88 million and service income from network connection of Baht 2.24 million. The major projects of this period are such as the project of providing high-speed internet service in remote area (USO Phase 2) which recognized revenue of Baht 105.49 million, and the project in contractor of communication system for DMS which recognized revenue of Baht 90.34 million.

1.1.3. Service income from data center space

The Company has operated data center space service in October 2014 after acquiring assets from ILINK.

For the three-month period ended 31 March 2019, the Company had service income from data center space of Baht 22.40 million or 5.00% of total service incomes. It increased because the electricity charged to customers. The occupancy rate of data center is 95%.

2. Costs and expenses

The major costs of the Company are such as costs of services, service expenses, administrative expenses, and finance cost. For the three-month period ended 31 March 2019, the total costs and expenses was Baht 402.16 million as followings:

2.1. Costs of services and gross profit margin

Costs of services are main expenses of the Company. For the three-month period ended 31 March 2019, cost of services was Baht 341.58 million. It was higher than the prior year by 24.51% which was aligned with the increasing of revenue. The table below illustrated the components of costs of services and their gross profit margin.

Service Costs	31 March 2019		31 March 2018	
	Million Baht	GPM (%)	Million Baht	GPM (%)
Cost of network rendering	138.18	32.32	104.72	28.61
Cost of network installation service	190.33	14.31	157.94	18.70
Cost of data center space service	13.07	41.65	11.69	44.78
Total costs of services	341.58		274.35	

2.1.1. Cost of network rendering

For the three-month period ended 31 March 2019, the Company had cost of network rendering of Baht 138.18 million in which resulting to gross profit margin of network rendering service was at 32.32% which increased comparing to the prior year, mainly because of the revenue recognition of network rendering service of the increased projects. The major expenses are such as depreciation expenses, interconnection of network expenses, rental space to install the network expenses, repair and maintenance expenses, and employee benefit expenses which represented 31.63%, 16.62%, 16.11%, 13.56%, and 8.06% of total cost of network rendering for the three-month period ended 31 March 2019, respectively.

2.1.2. Cost of network installation service

For the three-month period ended 31 March 2019, the Company had cost of network installation service of Baht 190.33 million in which resulting to gross profit margin of installation service was at 14.31%. The gross profit margin of 2019 decreased comparing to prior year because of the project in contractor of communication system for DMS which gross profit margin is lower than 20%. Major costs of network installation service are such as material cost and installation cost.

2.1.3. Cost of data center space service

For the three-month period ended 31 March 2019, the Company had cost of data center space service of Baht 13.07 million in which resulting to gross profit margin of data center business was at 41.65%. The gross profit margin decreased due to increasing of electricity expense charge from MEA while service charge rate from the Company to the customer were fixed at contractual rate. Major costs of data center space service are such as depreciation expenses, utilities expenses, and employee benefit expenses.

2.1.4. Gross profit and gross profit margin

For the three-month period ended 31 March 2019, the Company had gross profit of Baht 107.10 million increased by Baht 19.33 million comparing to the prior year. The gross profit margin of 2019 was at 23.87% which was lower than 2018 which the gross profit margin was at 24.24%. This is because of the decrease in gross profit margin of installation service as stated above.

2.2. Administrative expenses

For the three-month period ended 31 March 2019, the Company had administrative expenses of Baht 17.17 million which was higher by Baht 5.34 million comparing to the same period of the previous year or equivalent to 45.16% of total revenue. The administrative expenses per total revenue was at 3.77% of total revenue which slightly increased comparing to 2018 that had the proportion at 3.23% of total revenue. Major administrative expenses are such as employee benefit expenses and management, and back office shared service expenses.

2.3. Finance costs

For the three-month period ended 31 March 2019, the Company had finance costs of Baht 28.84 million. The major of finance costs are interest expenses from loans that increasing in the line with loan principal amount. As of 31 March 2019, the Company had short-term loans from financial institutions amounted to Baht 1,337.08 million, long-term loans from financial institution amounted to Baht 1,639.03 million, and finance lease liabilities amounted to Baht 68.66 million (As of 31 March 2018: short-term loans from financial institutions amounted to Baht 419.25 million, long-term loans from financial institution amounted to Baht 1,675.64 million, and finance lease liabilities amounted to Baht 66.26 million).

2.4. Net profit and net profit margin

The Company's net profit for the three-month period ended 31 March 2019 was Baht 38.91 million and the net profit margin was at 8.58% in which they were higher than that in the same period in 2018 which net profit was Baht 31.09 million and the net profit margin was at 8.49%. The increase mainly because of growth of service income as described above.

2.5. Return on Equity (ROE)

ROE as of 31 March 2019 is 9.67%.

Financial Position

1. Assets

As at 31 March 2018, the Company had total assets of Baht 5,874.71 million or 8.48% of increasing compared to Baht 5,415.44 million at the end of 2018. Major assets are such as cash and cash equivalent, trade accounts receivable, accrued revenue from network installation service, and fixed assets and telecommunication networks which were presented as at 31 March 2019's figures by 6.20%, 6.34%, 17.59% and 63.36% of total assets, respectively. The significant accounts that were notable changed were such as

- 1) Cash and cash equivalent, increasing according to advance received from network installation service;
- 2) Accrued revenue, increasing according to progress work that still to be billed; and
- 3) Fixed assets and telecommunication networks, increasing from expanding as to support sales and increase its coverage as well as its stability.

2. Liabilities

As at 31 March 2019, the Company had total liabilities of Baht 4,245.87 million or increased by 11.23% comparing to Baht 3,817.07 million at the end of 2018. Mainly, the increasing is from the proceeds from short-term loans from financial institutions by Baht 300.12 million and advance received from network installation service by Baht 174.00 million. However, the Company paid for long-term loans from financial institution by Baht 77.56 million in 2019.

Major liabilities are such as short-term and long-term loans from financial institutions and trade and other payables that they are approximately 70.09% and 21.56% of total liabilities as at 31 March 2019, respectively.

3. Equity

As at 31 March 2019, the Company had equities of Baht 1,628.84 million or increased by 1.91% comparing to Baht 1,598.37 million at the end of 2018. The shareholders' equity increased by Baht 38.91 million as a result of the three-month period operation results. Moreover, the Company has adopted the new Thai Financial Reporting Standards (TFRS) no. 15, Revenue from contracts with customers from 1 January 2019 under the modified retrospective approach and the comparative figures have not been restated. The opening balance of retained earnings were decreased by Baht 8.44 million by the impacts of adoption of TFRS 15.

4. Capital Structure

The Company has debt to equity ratio at 2.61 times as at 31 March 2019 that is increased from 2.39 times of 2018. The significant increase is due to the proceeds from loans from financial institution to payment for purchases of fixed assets and telecommunication networks and investing in network installation service.

In addition, the Company has to comply to 2 conditions of debt covenant as follows:

- 1) Loans from financial institution to equities and loans from related party must not be greater than 2 times; and
- 2) DSCR must not be less than 1.2 times.

As at 31 March 2019, the Company has the above ratios at 1.87 times and 1.19 times, respectively. However, the financial institution will evaluate at the end of fiscal year.

Please be informed accordingly.

Yours sincerely,

(Mr. Nuttanai Anuntarumporn)

Managing Director
